

Ovarian Tumours - A Rough Guide

Friday 18 September 2009

To be held at East Pennine Cytology Training Centre, aynham House, 2 Capitol Close
Capitol Park West, Leeds, LS27 0WH

This course is directed at trainees who seek a hands-on approach to the diagnostic pathology of ovarian tumours. We aim to provide exposure to a wide range of primary and metastatic tumours to the ovary together with the guidance in the judicious use of relevant immunohistochemistry. It would be most appropriate for year 2 to year 4/5 trainees.

9.00 COFFEE & REGISTRATION
