

Launch of Affiliate membership

Daniel Ross
Chief Executive

The College is pleased to launch its Affiliate membership scheme.

Affiliate membership is open to those working within pathology who wish to be linked with the activities of the College. Examples of those who may wish to affiliate include:

- clinical scientists
- research academics
- biomedical scientists
- dental pathologists
- toxicologists
- those working in the veterinary pathology field
- members of specialist societies

This list is not exhaustive. Others working in a pathology discipline may wish to affiliate, and will

be welcome to do so.

Please note: those who would be eligible for another category of membership (Fellowship, Diplomateship or Associateship) are not eligible for Affiliate membership.

Full details of the Affiliate membership scheme, including benefits of Affiliation and how to apply, are on the College's website at www.rcpath.org/index.asp?PageID=24.

In addition, we ask that existing College members pass this information on to their colleagues. Many thanks.

Daniel Ross
Chief Executive
