

Training the Trainer

Thursday 29 April 2010

To be held at the Royal College of Pathologists,
2 Carlton House Terrace, London, SW1Y 5AF

AIM

The main focus of the training day will be assessing the management and leadership components of the newly revised specialty curricula which are currently awaiting approval from PMETB. The day will also be aimed at clarifying, in general, the new curricula arrangements. This will be achieved through interactive presentations, practical exercises including video recordings of 'pathology' settings, discussion and feedback.

This event is aimed at consultants, staff grade and associated specialists, senior biomedical scientists, clinical scientists, trainees and other healthcare professionals who are involved in the training of pathology trainees.

Some parts of the training session will be video recorded and made available for circulation on the College website for educational but non-commercial purposes. The opportunity to opt out of the video proceedings will be given on the day.
