

The Royal College of Pathologists

Pathology: the science behind the cure

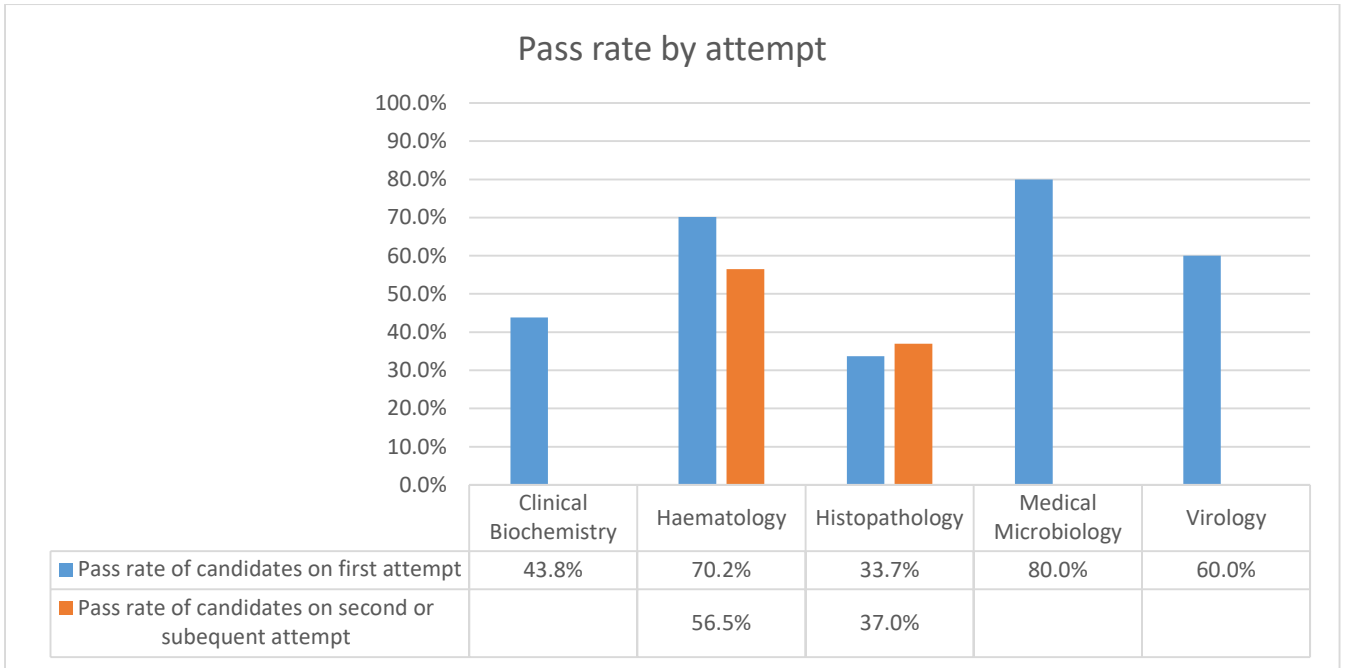

## Candidate performance in FRCPATH Part 2 examinations Autumn 2019

Of the 758 candidates who sat FRCPATH examinations in Autumn 2019, 276 were Part 2 candidates. The overall pass rate for FRCPATH Part 2 examinations was 51.1%. Because of the way in which information about candidates is currently recorded, we are not at present able to give a verifiably accurate breakdown between UK and overseas candidates.

### Candidate performance in individual FRCPATH Part 2 examinations

Where possible, the Royal College of Pathologists will publish exam outcome information broken down by specialty. To preserve candidates' anonymity, such information will only be published where the examination, or part of the examination, has six or more candidates. Please note that depending on fluctuations in numbers of candidates between sessions, it may not be possible for the College to provide data for some specialties in any or every performance report.

Note: pass rate information will not be published where there are fewer than six candidates at a particular attempt or no passes.
