

‘Joining’ the humanitarian ‘sector’...

RSM, Nov. 2016

“Aid does have serious problems, and more especially serious limitations. [...] ‘But it is part of the solution rather than part of the problem.’”

Source: The bottom billion... by Paul Collier, 2007

**International Medical Corps provides
health and medical assistance to people affected by conflict, natural
disasters, disease outbreaks, protracted situations, disrupted health
systems**
