

Please describe in lay terms why your submitted paper is so important (in not more than 100 words)

Please write a short summary of the main research findings and why they are important to the pathological and wider community (max 500 words). This will be published in the RCPATH Bulletin if you are successful in either the specialty awards or the gold award. Please also send a digital head and shoulders photograph for publication alongside the article.

Briefly describe your role in the following activities:

- applying for funding for the project
- designing the study
- performing the study
- analysis and interpretation of results
- writing the manuscript

Each candidate is required to provide confirmation below of their research role / duties from their research supervisor.
